Full Stack Engineer (2 YOE) building scalable **fintech systems** with proven impact on **revenue, performance, and reliability.** Strong in **backend architecture, system design, and data-driven products,** with experience owing features end-to-end and leading development efforts.

EXPERIENCE

Full Stack Engineer | Flend **Dec 2023 – Present**
Cairo, Egypt

Flend is Egypt's first tech-enabled, data driven financing solutions platform dedicated to small and medium enterprises, combines innovative technology with deep data insights to simplify and accelerate the financing process

- Increased **revenue by ~1.12% per loan** by optimizing interest calculation logic
- Improved **system performance by 60%** via testing (unit, integration, E2E) and optimizations
- Built **Credit Engine** for risk scoring using repayment behavior, cash flow, and loan history
- Refactored backend using **SOLID principles** and **Repository Pattern**
- Lead frontend development (**React, Nextjs, React-Admin**) and conducted code reviews
- Reduced network overhead using **React Query caching**
- Integrated **payments (Kashier)** and identity verification **(Digified)**
- Implemented **real-time observability stack** (Grafana, Loki) and centralized logging
- Worked with **Huawei OBS** for object storage and **CMCS** for cloud resource management
- Built and maintained **CI/CD pipelines using Jenkins,** improving deployment reliability
- Containerized services using **Docker** for consistent environments across development and production
- Customized **Apache Superset** for internal BI

Tech: NestJS, PostgreSQL, Prisma, React, Next.js, React Query, Docker, Jenkins, Huawei Cloud (OBS, CMCS)

Freelance Front End Engineer | Residia **Apr 2025 – May 2025**
Remote

Developed and implemented critical frontend functionalities for a real estate e-commerce platform, ensuring seamless user experience and robust data integrity.

- Built **dynamic validation system** reducing data errors and improving workflow efficiency
- Developed **real-time chat module** (messaging, attachments, notifications)
- Collaborated effectively within a compact, agile team of three to deliver critical features on a tight timeline, ensuring alignment between front-end and back-end development.

Tech: Nextjs, WebSockets

EDUCATION

BSc in Computer Engineering **Sep 2018 – Jul 2023**
Cairo University, Egypt

SKILLS

- **Languages:** JavaScript/TypeScript, Python, HTML, CSS, SQL
- **Frontend:** React, Next.js, React Native, Vue, jQuery.
- **Backend:** Node.js, Express.js, Nest.js, RESTful APIs
- **Database:** PosgreSql, MongoDB
- **Cloud & DevOps:** Docker, Jenkins, Huawei Cloud (OBS, CMCS)
- **Tools & Libraries:** React-Admin, Redux Toolkit, RTK Query, React Query, Material UI, TailwindCSS, Sass, Git, Apache Superset
